

Higher

I was waiting on the 6am
Catch a train down to see a man about a dog
I tell ye man if I arrive late I might as-well just have stayed in bed
Ooohh should have stayed in bed

I was only trying to get us higher (higher)
Your always trying to steal my fire (fire)
Always trying to make me a liar (liar)
Only trying to get us higher

I've been down town so many times
Smoking weed can't be such a crime
I've had to face the man in the high court
He tries to tell me what my life is worth

What my life is worth

I was only trying to get us higher (higher)
Your always trying to steal my fire (fire)
Always trying to make me a liar (liar)
Only trying to get us higher

Ooohh should have stayed in bed
I was only trying to get us higher (higher)
Your always trying to steal my fire (fire)
Always trying to make me a liar
Yeah your always trying to steal my fire

Only trying to get us higher baby
Only trying to get us higher baby
Only trying to get us, only trying to get us, only trying to get us higher, higher.....
